RTE: SPOTIFY FOR COMPANIES

Business management should be as easy as business creation!

A user-friendly, trusted and integrated digital platform enabling real-time transactions for SMEs.

IoB vision

Internet of Business bigger vision is real-time interaction between databases, processes, systems to create IoB network and enable live services across enterprise and country boundaries.

IoB objectives in CEF

IoB main objectives in CEF Telecom 2016 eInvoicing are

- the implemention and deployment of common EU standards (EU Norm) in service providers existing systems
- the connection with PEPPOL network and the integration of eDelivery services

Main outcomes

- to be compliant with the **eInvoicing Directive 2014/55/EL**
- to be part of **PEPPOL network/community**
- to provide secure cross-border and cross-sectoral business transactions between public sectors and businesses (including SMEs).

Most important for EU is to have Estonian public sector connected with and open for Europe.
