eReceipt actors and flow in Finland

1. Registration

2. Purchase

3. Present eReceipt

4. Usage of eReceipts

eAddress and payment method

eReceipt

eReceipt service provider
-present eReceipt -
archive and re-
routing

4. Ereceipt services

Internet Bank

Companies

Accountant companies

Authorities

Goals of the eReceipt workshop

- The nature of the event “Borderless Real-Time Economy (RTE) Round Table” we should concentrate:
 1. What kind of recommendations do we want to issue to the authorities of different countries on the eReceipt
 2. What benefits these recommendations can achieve?
 3. What challenges these recommendations can cause?
 4. Will the recommendations also help the delivery of the eReceipt across borders?
 5. Can we prioritize the recommendations found?

Identified in Finland in RTECO eReceipt ecosystem 1/3

- Tax authority in Finland
 - **Automated VAT collection with eReceipt**
 - **Preventing the grey economy with eReceipt** (no Electronic Tax Register ETR)
- Statistics Finland
 - **More detailed information for statistics purposes**
- Ministry of transport and communication / Finnish transport agency
 - The most important tasks of the Finnish Transport Agency at the entry into force of the first phase of the Transport Services Act will be from 1 July 2018
 - **Automated statistics with eReceipt e.g. supported routes**

Other supporters

- Customs
- Common eReceipt content and structure EU level
- State Treasury / State Service Centers
- Minister of Finance
- Countries Digital Agenda - real case
